What's new this month

WELCOME

Welcome to this month's edition of the *European Rail Timetable* which includes various updates to rail and bus schedules around Europe.

Readers are reminded that, in addition to our regular printed timetable, there is now a digital version available for you to download onto your smartphone, tablet, eBook and to view on your computer. Please check our website for further information regarding this new way to obtain the European Rail Timetable (www.europeanrailtimetable.eu).

ROUTE OF THE MONTH

Nicky Gardner and Susanne Kries, our regular roving travel writers, report on a recent journey through the borderlands of southern Bohemia from České Budějovice, in the Czech Republic, to the Austrian city of Linz. They decided to break their journey at Rybnik, a few kilometres from the Austrian border, so they could also enjoy a trip along the scenic branch line to Lipno nad Vltavou. The description of their journey, which includes a fascinating insight into one of the train names used on this route, will be found on page 34.

TIP OF THE MONTH

For our *Tip of the Month*, which will be found on page 35, Nicky and Susanne suggest some locations where it is possible to break up a long rail journey by swapping the train for a boat. The Elbe, Rhine and Danube rivers are just three examples of where it is possible to easily switch modes and enjoy the scenery at a much slower pace. Many river boat schedules are featured in the *European Rail Timetable*, including all of the examples described in this month's article.

INTERNATIONAL

Eurostar has announced details of its winter ski schedules to Bourg St Maurice for the 2016/2017 season. Trains are now open for booking and timings will be found in our updated Table 9.

From September 4, Polish train *TLK* **31011** Kraków – Warszawa – Białystok – Suwalki (and return train **13010**) are to be extended to and from Mockava, just across the border in Lithuania. The trains will be renumbered **141/140** and we understand connections will be available to and from Kaunas (Table **93**).

Train 52/51 Warszawa – Kraków – Przemyśl – Lviv now conveys a Wrocław portion (Table 97).

An enhanced *ICE* service between Brussels and Frankfurt is expected be introduced from the December timetable change and we have included the proposed timings in a special table on page 36.

GREAT BRITAIN

Progress is being made on repairs to the Settle to Carlisle line with many rail services now running as far as Armathwaite. However, there are still a number of services which do not run north of Appleby. Bus replacement services continue to be provided for journeys to and from Carlisle. Table 173 has been updated with the latest timings which are valid until further notice. Recent reports suggest that the line should fully reopen in March 2017.

We have added an additional page to our British section which has been used to improve the presentation of our Scottish tables. The Edinburgh/Glasgow to Inverness panel, previously shown as part of Table 222, now has its own dedicated table, numbered 223. This has allowed us to add connecting trains between Glasgow and Perth, and also to show the Edinburgh connections more clearly. Table 226, which covers services north of Inverness, has also been expanded and now includes all services within the main table.

FRANCE

An event which previously passed us by is reopening of the Oloron-Ste-Marie to Bedous line in the Pyrénées (we are grateful to several readers who contacted us about this). Schedules valid until September 25 show six train pairs with appropriate bus connections to Canfranc in Spain (Table 324). There are some improved connections at Canfranc for onward journeys to Spanish destinations (see Table 670).

Last month we reported on the uncertain future of many overnight services in France. Since then, it has been confirmed that most will continue to run as normal for the time being. The only service that has been affected is the couchette train between eastern and southern France shown in Table 379. We understand that only the Strasbourg to Nice portion is now running, with the Luxembourg to Nice, Luxembourg to Cerbère and Strasbourg to Cerbère portions all withdrawn. We will continue to monitor the situation closely.

SPAIN

The morning AVE service 10830 Zaragoza – Madrid – Sevilla and corresponding evening return (train 10831) have been withdrawn (Tables 650 and 660).

New schedules on the Lleida to La Pobla route started on July 25 and full details will be found in Table 655.

The service between Benidorm and Dénia has been reduced in frequency from hourly to every 75 minutes. Journey times have also been extended (Table 667).

The Saturdays only 0751 Reginal Exprés departure from Tortosa to València is retimed to depart 66 minutes earlier and run in the same path as the Mondays to Fridays service. The 0815 Reginal Exprés service from València to Tortosa has also been retimed, departing 0750 on Mondays to Saturdays and 0905 on Sundays (Table 672).

Eva Transportes and Damas S.A., who jointly run the international bus service between Sevilla and Lagos, have issued a new timetable from July 1 which includes some extended journey times (Table 676).

PORTUGAL

One Porto to Régua *IR* train is being extended to and from Tua on Mondays to Fridays until September 23 (Table **694**).

The Lisboa to Faro route (Table 697) has an additional out and back journey on Saturdays until the end of August, and there is an extra summer journey on Friday evenings southbound and Sunday evenings northbound. An additional Lagos to Tunes journey connects with the Sunday train

ITALY

Further updates have been made this month to our Italian tables. Several periods of engineering work have resulted in schedule variations during the currency of this timetable, the most serious of which are listed below.

A bus replacement service will operate between Catania and Siracusa until September 3; this will also affect all long-distance trains which will terminate and originate at Catania (Table **641**).

Services on the Torino/Milano – Pisa – Roma axis, and between Parma and La Spezia, will be liable to disruption from October 9 to November 5 (Tables 610, 611 and 612).

Services on the Genova to Ventimiglia route are subject to alteration from November 2 when all trains between Alassio and Ventimiglia are cancelled. Local trains will operate between Genova and Alassio, and I/C services between Genova and Albenga (Table 580). The situation regarding Thello services is unclear at the moment, but we hope to show an amended version of Table 580 in our November edition.

Elsewhere, the Aosta to Pré Saint Didier route has been deleted from Table **586** following withdrawal of rail services; readers are reminded that an hourly bus service still operates between these points on the route to Courmayeur (shown in Table **368**).

SWEDEN

Following a request from a reader, local services between Malmö and Trelleborg have been added to Table **731**, thereby making it easier to plan journeys by rail and ship to Germany.

ΕΙΝΙ ΔΝΙ

The validity of our Finnish section has been extended to cover the service through to the mid-December timetable change.

There have been a number of alterations to bus schedules in northern Finland, some of which affect connections with rail services at Rovaniemi. Tables **789** and **794** have been updated with the latest timings.

ALBANIA

Following industrial action taken on July 8, services have once again been reduced. There is now just a single return journey between Kashar (for Tiranë) and Durrës (Table 1390).

CONTINUED ON PAGE 36

August 2016 3

What's new this month (continued from page 3)

TURKEY

Last month we reported on major upgrade work taking place in and around Ankara which is expected to disrupt services in the area for about 18 months. Table 1570 has now been updated to reflect the amended schedules of high-speed services which, in general, have an additional 10 minutes allowed per train between Sincan and Ankara, and an extra 5 minutes between Eskişehir and Pendik. Travellers should be aware that the Kayas – Ankara – Sincan suburban service (not shown in our tables) has been withdrawn for the duration of the work. Services shown in Tables 1575 and 1582 have also been affected with some trains suspended.

The Pamukkale Ekspresi between Eskişehir and Denizli has been completely retimed in both directions (Tables 1581 and 1587). Previously scheduled for morning departures, they now start their journeys mid-afternoon, at 1540 from both Eskişehir and Denizli, arriving at their destination late evening.

BEYOND EUROPE

This month's Beyond Europe section features South East Asia, Australia and New Zealand with tables numbered from **6000**.

Since this section last appeared, KTMB in Malaysia has completely reissued its timetable. Although they show the *International Express* trains **35** and **36** as running to and from Butterworth, other sources seem to indicate that a change of trains at Padang Besar is required.

We have added a new Table 6090 showing the recently reintroduced rail services in Cambodia.
